

2018 Ehlers Danlos (EDS) knowledgeable CCI, AAI SAI neurosurgeons. There are NO Canadian neurosurgeons currently that are knowledgeable and have experience. These surgeons are in the USA and 1 in Barcelona Spain that have experience and have performed countless upper cervical & cervical surgeries. Many of us EDS patients have undergone surgeries without knowledgeable surgeons and have been harmed. It is very important to seek many opinions and have a truly EDS knowledgeable surgeon.

Dr. Fraser Henderson (Maryland)
